PPAA Digital & AI Solutions

From Policy Insight to Digital Execution

Through its technology and innovation partners, PublicPolicyAsia Advisors (PPAA) extends its advisory capabilities into advanced digital, AI, and platform solutions that help governments, financial institutions, and enterprises design, build, and scale next-generation digital infrastructure across Asia.

THE PPAA ADVANTAGE

By combining policy insight, regional government relationships, and advanced technology capabilities, PPAA helps organisations enter markets faster, navigate complex regulatory landscapes, and build the digital infrastructure required to scale across Asia.

STRATEGIC & AI TRANSFORMATION ADVISORY

Helping organisations redesign operating models for the AI-driven economy.

**AI and Digital
Transformation Strategy**

**Digital Operating
Model Design**

**Data & AI
Governance Frameworks**

**Financial Services
Transformation**

**Digital Public Infrastructure
(DPI) Strategy**

**Technology Roadmaps aligned
with regulatory and policy frameworks**

FRONTIER TECHNOLOGY SOLUTIONS

Building the next generation of enterprise and national digital infrastructure.

- Agentic AI systems and intelligent automation
- Cloud-native platforms and data ecosystems
- Cyber resilience and security architecture
- Blockchain and tokenisation infrastructure
- Digital product engineering and platform modernisation

ENTERPRISE PLATFORMS & DIGITAL BANKING INFRASTRUCTURE

Ready-to-deploy platforms that accelerate digital ecosystem development.

- Digital banking and core banking platforms
- Card issuing and payment processing systems
- KYC, identity verification, and digital onboarding platforms
- Compliance, risk, and regulatory technology solutions
- FinOps and multi-cloud cost optimisation platforms

DIGITAL SKILLS & CAPABILITY DEVELOPMENT

Building the future workforce for digital economies.

Academy programmes designed for governments, enterprises, and financial institutions:

- AI & Agentic AI Readiness
- Cybersecurity Leadership
- Cloud & Platform Engineering
- Blockchain & Digital Infrastructure
- Digital Infrastructure & Technology Leadership

Programmes delivered through virtual academies, industry labs, and modular training frameworks.

GLOBAL CAPABILITY CENTRES & WORKFORCE SOLUTIONS

Helping organisations scale innovation and operational capabilities across Asia.

- GCC strategy and setup
- Talent ramp-up programmes
- Build-Train-Deploy workforce models
- Digital engineering and innovation centres
